### LIQUIDS

### SOLIDS

### SHARPS

**Sharps Container**
- NOT Cardboard
- NO Biohazard Symbol
- NO Biohazard Wording

**Autoclave Bag**
- NOT Red in Color
- NO Biohazard Symbol
- NO Biohazard Wording

**Decontaminate with**
- 10% Bleach to a Final Concentration (or use Other Appropriate)

**Autoclave Bag**
- Red in Color
- Biohazard Symbol
- Biohazard Wording

**Sharps Container**
- NOT Cardboard
- Has Biohazard Symbol
- Has Biohazard Wording

**Close Sharps Container and Complete**
- Hazardous Waste Tag

**Discard in Regular Trash**

**Discard in Designated Biohazardous Waste Container for EHS to Pick-up (x6727)**

**Close Sharps Container and Complete**
- Hazardous Waste Tag

**Biohazard Bag Containers**
- Red biohazard bags in use must be kept inside rigid, leak-resistant containers. The container must have a lid that fits securely.
- The container may be of any color
- The container must be labeled “Biohazardous Waste” or with the work “BIOHAZARD” and international biohazard symbol on the lid and the sides so that the label is visible from any lateral direction.
